Dear Mr. Hasemyer:

This is in further response to your requests for release of information from the files of the U.S. Army Criminal Investigation Command (USACIDC) and supplements our responses of February 6, 2019, February 25, 2019, and April 3, 2019. Your requests were received on January 15, 2019, February 21, 2019, and April 3, 2019.

The enclosed Law Enforcement Report (LER) 00307-2016-CID013-014053-5H, responsive to your request, is part of a system of records containing information that is exempt from the disclosure provisions of the Freedom of Information Act (FOIA). The names of law enforcement personnel, as well as names, social security numbers, and other personal items of information pertaining to third parties have been withheld. The withholding of this information constitutes a partial denial of your request pursuant to Title 5, USC, Section 552, Exemptions (b)(6), and (b)(7)(C) of the FOIA, because release would constitute a clearly unwarranted invasion of the personal privacy of other individuals mentioned in the report. We also applied Exemption (b)(5), which permits withholding of information under the deliberative process privilege or information that could be withheld under the civil discovery, attorney-client, or attorney work product privileges, and Exemption (b)(7)(E), to withhold the identification numbers of special agents, as well as investigatory records or information compiled for law enforcement purposes where the techniques or procedures for law enforcement investigations or prosecutions would be disclosed.

This partial denial, which is made on behalf of Major General David P. Glaser, Commander, USACIDC, the Initial Denial Authority for USACIDC records under the FOIA, may be appealed to the Secretary of the Army.

If you decide to appeal at this time, your appeal must be submitted within 90 days of the date of this letter. In your appeal, you must state the basis for your disagreement with the partial denial and you should state the justification for its release. Your appeal is made through this Center and should be addressed to the Director, U.S. Army Crime Records Center, (FA19-1110/19-1552/19-2080) 27130 Telegraph Road, Quantico, Virginia 22134, for forwarding, as appropriate, to the Office of the Secretary of the Army, the appellate authority. Please note that your appeal should address information denied in this response and cannot be used to make a new request for additional or new information.

## DETAILS

About 1516, 27 Jul 16, SA (b)(6) (b)(7)(C) received the list of significantly involved medical staff from Mr. (b)(6) (b)(7)(C) (See List of Involved Staff)

About 1630, 27 Jul 16, SA (b)(6) (b)(7)(C) SA (b)(6) (b)(7)(C) and SA (b)(6) (b)(7)(C) this office, conducted canvass interviews of Ranger School cadre and students, conducted scene examination, and coordinated with the 15-6 officer. (See Sketch and Photographs)

The canvass interviews disclosed that 2LT Parros appeared to be acting normally and not in distress up until approximately 1600, during a layout by the Ranger Students. The canvasses indicated that during the layout the students were being "smoked" by instructors and that at some point during the "smoking" 2LT Parros approached a Ranger Instructor and requested to place his arms in ice bath due to feeling hot. The Ranger instructor then stated something to the effect "do you want to quit Ranger?" to which 2LT Parros replied "No SGT and continued with the layout. After the layout was completed 2LT Parros then was observed cooling his arms in the ice bath. Immediately after this the students then began placing their items in the barracks (Bldg. 5005) at which time 2LT Parros was observed to vomit 2-3 times. Ranger Instructors were alerted to this by students and 2LT Parros was escorted to the ice bath again due to the vomiting being a suspected heat injury. The canvasses disclosed that 2LT Parros was able to walk under his own power from Bldg. 5005 to the ice baths (Approx. 100 meters), while being escorted to by the Ranger Instructors. While he walked to the ice baths he complained of being hot and was able to answer basic questions like what his name was and what day of the week it was. 2LT Parros cooled his arms in the ice bath for a short period at which time he began to convulse and become unresponsive and was then ice sheeted until medics arrived. The canvasses revealed there was never any indication or evidence of any head trauma, the "combatives" was rubber knife fighting which occurred at Malvesti Field, no striking, choking or body blows took place during this training. One of the Soldiers canvassed stated that 2LT Parros told him earlier in the day he consumed 5-6 camelbacks of water. The other information disclosed from the canvasses indicated on Sunday 24 Jul 16, the students were provided six Cerasport electrolyte powder packets to put into their camelbacks to consume. The students disclosed on 25 July 16, they had access to only one Cerasport electrolyte packet, and were not able to consume it until approximately 45 minutes prior to the layout.

About 1715, 27 Jul 16, SA (b)(6) (b)(7)(C) coordinated with COL (b)(6) (b)(7)(C) Line of Duty Investigating Officer, FBGA, and briefed on the CID Investigation. COL (b)(6) (b)(7)(C) provided copies of sworn statements obtained by the 4th RTB after the incident. (See sworn statements)

About 0900, 28 Jul 16, SA (b)(6) (b)(7)(C) SA (b)(6) (b)(7)(C) and SA (b)(6) (b)(7)(C) this office, attended the autopsy of 2LT Parros which was conducted by LTC (b)(6) (b)(7)(C) MACH, FBGA. LTC (b)(6) (b)(7)(C) was

The report indicated that EMS arrived at the scene at 2104 and left at 2109, 2LT Parros' breathing and circulation/pulse were both listed as adequate and his airway was open and clear. The report indicated EMS arrived at the Emergency Department at MACH, at 2121, according to the EMS sheet 2LT Parros status remained the same during transport and care was transferred to the MACH. (See EMS Run Report)

About 0920, 12 Aug 16, SA (b) (6), (b) (7)(C) and SA (b) (6), (b) (7)(C) reviewed the medical documents provided to this office relating to 2LT Parros' time at the MACH. The documents revealed that 2LT Parros arrived at the Emergency Room at about 2121, 25 Aug 16, when his care was transferred from EMS to MACH personnel. 2LT Parros' was intubated to protect his airway and the Intensive Care Unit (ICU) was consulted for admission. At about 0056, 26 Aug 16, 2LT Parros was cold and began to shiver, also his breathing deteriorated, medical personnel intervened and his condition improved. At about 0126, 26 Aug 16, 2LT Parros was "very responsive to any stimulation" including he would cough with tube movement. By 0135, 26 Jul 16, 2LT Parros was resting quietly awaiting transfer to the ICU, which he was transferred at 0200. No further information was available within the documents received, but 2LT Parros was eventually transferred to Midtown Medical Center.

About 1220, 25 Aug 16, SA (b) (6), (b) (7)(C) this office, interviewed CPT (b) (6), (b) (7)(C) (Doctor), inside the Green Team Clinic at MACH, FBGA, regarding his knowledge of the medical treatment provided to 2LT Parros at MACH on 27 Jul 16. Dr. (b) (6), (b) (7)(C) said 2LT Parros was intubated in the ICU after being given medication to sedate him due to his combative behavior upon arrival at MACH. Dr. (b) (6), (b) (7)(C) recalled that intravenous vein (IV) access was difficult with 2LT Parros so he inserted a central IV line in 2LT Parros' jugular vein. Dr. (b) (6), (b) (7)(C) said the central line was confirmed through an X-ray. Dr. (b) (6), (b) (7)(C) said 2LT Parros' blood pressure was extremely low so administered a presser through the central line. (RI) on duty. SSG (b)(6) (b)(7)(C) related the 2LT Parros moved himself from the barracks to the CTA where he was ice sheeted. SSG (b)(6) (b)(7)(C) related 2LT Parros began to have seizures just as the medics arrived. SSG (b)(6) (b)(7)(C) related he traveled with 2LT Parros to the Penny Aid Station, and while there 2LT Parros was unable to talk and was very delirious.

2LT (b)(6) (b)(7)(C) B Company, 4th RTB, ARTB, FBGA, provided a statement wherein he detailed his interactions with 2LT Parros on 25 Jul 16. 2LT (b)(6) (b)(7)(C) stated in the late afternoon he could see 2LT Parros looked tired, 2LT (b)(6) (b)(7)(C) asked 2LT Parros if he was okay, to which he responded he was fine. 2LT (b)(6) (b)(7)(C) stated when they were released to the barracks to pack, 2LT Parros took a bunk next to him and sat with his head in his hands. 2LT (b)(6) (b)(7)(C) stated he asked again if he was okay, which he responded with yes. 2LT (b)(6) (b)(7)(C) related he then noticed 2LT Parros vomiting, and appeared pale and delirious, 2LT (b)(6) (b)(7)(C) stated he then alerted an RI, and 2LT Parros subsequently received medical attention.

SPC (b)(6) (b)(7)(C) B Company, 4th RTB, ARTB, FBGA, provided a statement wherein he detailed his interactions with 2LT Parros on 25 Jul 16. SPC (b)(6) (b)(7)(C) related 2LT Parros vomited at least 3 times, appeared grayish and generally unwell. SPC (b)(6) (b)(7)(C) stated he asked him simple questions which he answered with a delay. SPC (b)(6) (b)(7)(C) stated the RIs were notified and instructed get him up and out onto the company area, SPC (b)(6) (b)(7)(C) related 2LT Parros was laying on the bed and struggled to get up, and required help. SPC (b)(6) (b)(7)(C) stated after he was on his feet he was able to walk, this is when the RIs arrived and asked more basic questions which he answered correctly but still with a delay. SPC (b)(6) (b)(7)(C) related ice sheets were applied to 2LT Parros, then he experienced a seizure, at which point the medics had arrived and assumed responsibility for his care.

Several other witnesses were interviewed but had little to no knowledge of the incident.

The overall consensus was that 2LT Parros appeared to be not be feeling well during the layout, and seemed to be struggling with cramping. 2LT Parros was approached by a couple other ranger students and at least one RI, all of which he told he was just tired and dealing with cramps, but did not request medical assistance. All interviewees were asked about their hydration and Cerasport consumption, which revealed the students were instructed to sip the Cerasport throughout the day and stay hydrated. The ranger students all related they were given Cerasport, but each student interviewed stated they were given a different amount of packets. The interviewees each gave different answers when asked how many Cerasport they were to use.

About 1100, 20 Sep 16, SA (b)(6) (b)(7)(C) received and reviewed the class schedule for ranger class 09-16 (class that 2LT Parros was in). Class 09-16 began on 24 Jul 16 (Day 0), which was just for in-processing and a medical screening. The following day, 25 Jul 16 (Day 1), included the Ranger

About 1144, 20 Sep 16, SA (b)(6) (b)(7)(C) received and reviewed the Cerasport consumption guide that details how many packets of Cerasport is to be issued to each Ranger Student and when they are to be consumed. The guide indicates that on Day 0 students are to be issued 6 Cerasport EX1 packets that is to be used in their camelback and consumed throughout in processing. On Day 1, students are to be issued 6 Cerasport EX1 packets that is to be used in their camelback and consumed throughout the day. The guide details the difference between regular Cerasport and the EX1 packets as the EX1 packets have less carbohydrates and more sodium, further indicating that the EX1 packets are to be used as close to a physical event a possible. The guide also explained that 6 packets should be used in a 100 fluid ounce camelback. (See Cerasport Consumption Guide)

PNOK: About 1430, 29 Sep 16, SA (b)(6) (b)(7)(C) briefed (b)(6) (b)(7)(C) on the status of this investigation. SA (b)(6) (b)(7)(C) attempted to provide (b)(6) (b)(7)(C) an overview of what occurred the day of the incident; However, (b)(6) (b)(7)(C) wanted to know specific questions (i.e. what did he eat for breakfast, what did he eat for lunch, did anyone see him eat, what time did he first vomit, locations of the training, who first witnessed him in distress etc.). While conducting the briefing, (b)(6) (b)(7)(C) wrote the information down provided by SA (b)(6) (b)(7)(C). SA (b)(6) (b)(7)(C) informed her our office did not verify the contents of his meal and if he actually ingested food at both breakfast and lunch. SA (b)(6) (b)(7)(C) informed (b)(6) (b)(7)(C) this office would attempt to determine the answers to the aforementioned questions. (b)(6) (b)(7)(C) stated none of the information made any sense to her and no one had provided her any information about (b)(6) (b)(7)(C). SA (b)(6) (b)(7)(C) informed (b)(6) (b)(7)(C) the autopsy report and toxicology reports were still pending. (b)(6) (b)(7)(C) stated she didn't know why there reports were taking so long and she was going to call Dr (b)(6) (b)(7)(C) as she previously discussed the matter with him. Further, SA (b)(6) (b)(7)(C) informed (b)(6) (b)(7)(C) that he would attempt to schedule a joint telephone call with the Commander or Commander representative to discuss the matter in more details.

About 1510, 29 Sep 16, SA (b)(6) (b)(7)(C) coordinated with LTC (b)(6) (b)(7)(C) and briefed him on the family's concern. SA (b)(6) (b)(7)(C) inquired if he or anyone in his unit was tasked to brief (b)(6) (b)(7)(C). SA (b)(6) (b)(7)(C) informed LTC (b)(6) (b)(7)(C) of CID's requirement to brief the PNOK and CAO. LTC (b)(6) (b)(7)(C) was understanding of (b)(6) (b)(7)(C) concerns and requested our office coordinated with the LOD Investigator.

About 1335, 4 Oct 16, SA (b)(6) (b)(7)(C) and SA (b)(6) (b)(7)(C) coordinated with COL (b)(6) (b)(7)(C) to discuss the findings of the LOD investigation and this office's investigation, to further elaborate on the timeline of events. SA (b)(6) (b)(7)(C) informed COL (b)(6) (b)(7)(C) of (b)(6) (b)(7)(C) concern and her request for additional information. COL (b)(6) (b)(7)(C) stated he was not allowed to provide the details to (b)(6) (b)(7)(C) until the report was finalized. COL (b)(6) (b)(7)(C) provided the following information pertaining to the timeline of events:

2LT Parros was assigned to the middle company on the day of the incident. 0200, 25 Jul 16 was the first call of the day.

0400-0615: the physical fitness test, consisting of push-ups, sit ups, 5 mile run and pull ups was administered.

0700-0830: 2LT Parros attended breakfast at the DFAC. A hot breakfast was served. The Soldiers are allowed to consume water, milk or PowerAde for breakfast. Soft drinks are not allowed. The time allotted was for all companies to attend breakfast and 2LT Parros' company was identified to eat breakfast first.

0800-1030: 2LT Parros attended dead reckoning, company checks, pace count training and S4 issue of any missing equipment along with other members of his company. During this time classes were conducted outside near or under the covered training area (CTA). Soldiers are trained on proper pace count, functional check on all navigation equipment and missing equipment is issued.

1030-UTC: 2LT Parros accompanied his company to victory pond for combat water survival. The Soldiers are marched or jog to the pond, which is approximately 1.66 miles from the training area.

1300-1600: 2LT Parros accompanied his company from the pond back to the training area to complete the packing list layout and turn-in of unauthorized bags.

1630-1730: 2LT Parros was issued two MREs and one Cerasport, used to for electrolyte absorption and fast rehydration. 2LT Parros completed combative training. According to witnesses interviewed, Soldiers did not practice on throwing or striking. Throughout the day remedial training (physical activity) is administered to the Soldiers. Generally the Solders were issued six Cerasports daily; However, there was no written policy directing the issuance or consumption of meals.

COL (b)(6) (b)(7)(C) stated he interviewed the paramedics, who stated 2LT Parros was a little apprehensive/combative during the transport and his head inadvertently struck the EMS head, who was treating him during the transport, when he raised his upper body. Following treatment at the

medical treatment facility at Camp Rogers, 2LT Parros was administered IV and also at MACH. COL (b)(6) (b)(7)(C) stated the initial CT scan completed approximately 2300, 25 Jul 16, was normal and swelling was noticed in the second CT scan completed the following morning. Further, COL (b)(6) (b)(7)(C) stated he coordinated his efforts with the Safety Office and MACH.

About 1120, 5 Oct 16, SA (b)(6) (b)(7)(C) interviewed LTC (b)(6) (b)(7)(C) ICU Nursing Supervisor, MACH, FBGA, who stated she reviewed the patient's chart when she arrived at the MACH on 26 Jul 16, at about 0700. LTC (b)(6) (b)(7)(C) stated the review indicated 2LT Parros arrived at the ER and had labs done that indicated he had hyponatremia, meaning he had a low level of sodium in his blood. LTC (b)(6) (b)(7)(C) stated he was then given 5L of a regular saline fluid that contained .9% sodium, the fluids were administered over the course of two hours. LTC (b)(6) (b)(7)(C) stated in her opinion 2LT Parros should have received fluids that contained a higher percentage of sodium, around 3%, that should have been given in the range of 300-500 mL an hour. LTC (b)(6) (b)(7)(C) stated before 2LT Parros was transferred to the ICU from the ER, 2LT Parros had a CT/X-Ray done of his head, which indicated nothing irregular. LTC (b)(6) (b)(7)(C) stated on 26 Jul 16, she noticed a lack of documentation by medical personal prior to her arrival at work. LTC (b)(6) (b)(7)(C) stated that this was an odd case, in that people typically don't die from hyponatremia, but stated depending on how long someone has been at such a sodium deficit there is no treatment.

PNOK: About 1540, 6 Oct 16, SA (b)(6) (b)(7)(C) and SA (b)(6) (b)(7)(C) coordinated with (b)(6) (b)(7)(C) and briefed her on the status of this investigation. SA (b)(6) (b)(7)(C) and SA (b)(6) (b)(7)(C) briefed (b)(6) (b)(7)(C) on the events that occurred leading up to 2LT Parros' death. We informed her of different times associated with breakfast and various training events. We briefed (b)(6) (b)(7)(C) had breakfast at the dining facility and later in the day was provided MREs to eat. SA (b)(6) (b)(7)(C) and SA (b)(6) (b)(7)(C) informed (b)(6) (b)(7)(C) this office was awaiting completion of the autopsy report prior to completing additional interviews to determine if anyone was negligent or derelict in the performance of their duties. SA (b)(6) (b)(7)(C) informed (b)(6) (b)(7)(C) that a separate inquiry was being conducted to review medical treatment rendered to 2LT Parros. SA (b)(6) (b)(7)(C) informed (b)(6) (b)(7)(C) we went to the incident location to interview numerous Soldiers and received a detail account of the training locations. (b)(6) (b)(7)(C) stated she was having a difficult time understanding what happened (b)(6) (b)(7)(C) was healthy and never experienced any medical complications. SA (b)(6) (b)(7)(C) and SA (b)(6) (b)(7)(C) assured (b)(6) (b)(7)(C) this office was conducting an independent investigation into the matter. SA (b)(6) (b)(7)(C) and SA (b)(6) (b)(7)(C) briefed (b)(6) (b)(7)(C) on the way forward. Further, SA (b)(6) (b)(7)(C) informed (b)(6) (b)(7)(C) either SA (b)(6) (b)(7)(C) or SA (b)(6) (b)(7)(C) would coordinate with her weekly on Wednesday and 1500.

PNOK: About 1330, 12 Oct 16, SA (b)(6) (b)(7)(C) briefed (b)(6) (b)(7)(C) on the status of this investigation. There were no changes from the last brief, pending the autopsy results from AFMES. (b)(6) (b)(7)(C) still had

concerns in regards to what 2LT Parros was able to eat and if anyone saw him eat during breakfast. It was briefed to (b)(6) (b)(7)(C) that during the course meal times are fast paced and it was unlikely anyone would have seen him eat.

About 0900, 14 Oct 16, SA (b)(6) (b)(7)(C) coordinated with CPT (b)(6) (b)(7)(C) Senior Trial Counsel, Office of the Staff Judge Advocates (SJA), FBGA, and briefed on the aspects of this investigation. CPT (b)(6) (b)(7)(C) stated for the offenses of Manslaughter or Negligent homicide the acts committed that led to the death needed to be criminal in nature. He further explained that if 2LT Parros had recovered and been placed back into the course would there have been investigation? CPT (b)(6) (b)(7)(C) stated the actions of the cadre were negligent but not necessarily criminal.

About 1432, 24 Oct 16, SA (b)(6) (b)(7)(C) received the Final Autopsy Report of 2LT Parros, which revealed the cause of death was exercise-associated hyponatremic encephalopathy and the manner of death was accident. The toxicology report indicated 2LT Parros had diazepam, lorazepam and levetiracetam were found in 2LT Parros' system. LTC (b)(6) (b)(7)(C) related those medications were present in 2LT Parros' body due to medical interventions. LTC (b)(6) (b)(7)(C) stated those medications were present in 2LT Parros' system upon admission to MACH, due to 2LT Parros being combative during medical intervention. (See Autopsy and Toxicology Report for 2LT Parros)

About 1600, 24 Oct 16, SA (b)(6) (b)(7)(C) and SA (b)(6) (b)(7)(C) coordinated with LTC (b)(6) (b)(7)(C) regarding the autopsy results of 2LT Parros. LTC (b)(6) (b)(7)(C) related if anyone in this office had any questions with the medical terminology or results, he would be happy to explain. LTC (b)(6) (b)(7)(C) related (b)(6) (b)(7)(C) spoke with COL (b)(6) (b)(7)(C) Chief Medical Examiner, US ARMY MEDCOM AFMES, Dover AFB, regarding the autopsy results. LTC (b)(6) (b)(7)(C) (b)(6) (b)(7)(C) (b)(6) (b)(7)(C) LTC (b)(6) (b)(7)(C) further reiterated he believes the medical records from Midtown Medical would provide nothing of significant value. LTC (b)(6) (b)(7)(C) further related if (b)(6) (b)(7)(C) had any questions following the PNOK brief, he would be available.

About 1758, 25 Oct 16, SA (b)(6) (b)(7)(C) briefed MAJ (b)(6) (b)(7)(C) on the status of this investigation. SA (b)(6) (b)(7)(C) informed MAJ (b)(6) (b)(7)(C) of the cause and manner of 2LT Parros' death. SA (b)(6) (b)(7)(C) informed MAJ (b)(6) (b)(7)(C) administrative or disciplinary action will most likely be taken based on the results of this investigation and the Line of Duty investigation. SA (b)(6) (b)(7)(C) briefed MAJ (b)(6) (b)(7)(C) that the actions taken by the command during training did not reach the threshold associated with negligent homicide. SA (b)(6) (b)(7)(C) informed MAJ (b)(6) (b)(7)(C) that the supporting staff judge advocates were briefed and concur with the outcome of CID's investigation. Further, SA (b)(6) (b)(7)(C) briefed MAJ (b)(6) (b)(7)(C) no additional investigative activity was anticipated by this office. MAJ (b)(6) (b)(7)(C) did not have any questions or concerns and was appreciative of CID's assistance.

SA (b)(6) (b)(7)(C) informed (b)(6) (b)(7)(C) that COL (b)(6) (b)(7)(C) would contact her and discuss his findings. SA (b)(6) (b)(7)(C) informed (b)(6) (b)(7)(C) this office and the LOD Investigator would recommend administrative or disciplinary action be taken against some members of the command team and instructors based on the delayed medical care and lack of time for meal consumption. SA (b)(6) (b)(7)(C) informed (b)(6) (b)(7)(C) the unit was implementing updated operating procedures based on deficiencies identified during the CID and LOD investigation. (b)(6) (b)(7)(C) asked if she could obtain a copy of the ranger's operating procedures. SA (b)(6) (b)(7)(C) informed (b)(6) (b)(7)(C) that he didn't have the authority to release the Rangers operating procedures as it is a highly specialized unit. (b)(6) (b)(7)(C) stated (b)(6) (b)(7)(C) Michael, didn't get a chance to eat. (b)(6) (b)(7)(C) SA (b)(6) (b)(7)(C) informed (b)(6) (b)(7)(C) that CID does not have the authority to administer punishment and it's likely some form of punishment would be issued. SA (b)(6) (b)(7)(C) informed (b)(6) (b)(7)(C) the LOD officer identified deficiencies during the training event; however, they did not meet the threshold for investigating the incident as a negligent homicide.
